LEVRA

INTEGRATION THAT CHANGES THE STANDARD.

 **FAMEPLA**
MORE THAN EFFICIENCY

A NEW BALANCE

Dall'esperienza tecnica di Famepla e dall'evoluzione progettuale di iMilani nasce **LEVRA**.

A system that combines a **metal structure** with **plastic drawers**, where solidity and lightness coexist in perfect harmony.

A new balance for organising professional spaces.

SMART INTEGRATION

The solidity of the metal guarantees stability and durability over time. The plastic drawers add lightness, smoothness and sustainability.

The evolution in the combination of materials opens up **new technical possibilities** and paves the way for even better product performance.

FAST PRODUCTION, REDUCED ENVIRONMENTAL IMPACT

Drawer technology enables a faster and more efficient production process.

- Lower energy consumption
- Recyclable materials
- Low environmental impact

Efficiency today. Responsibility always.

STRUCTURAL SOLIDITY

Metal structure designed to ensure **stability, strength and durability**.

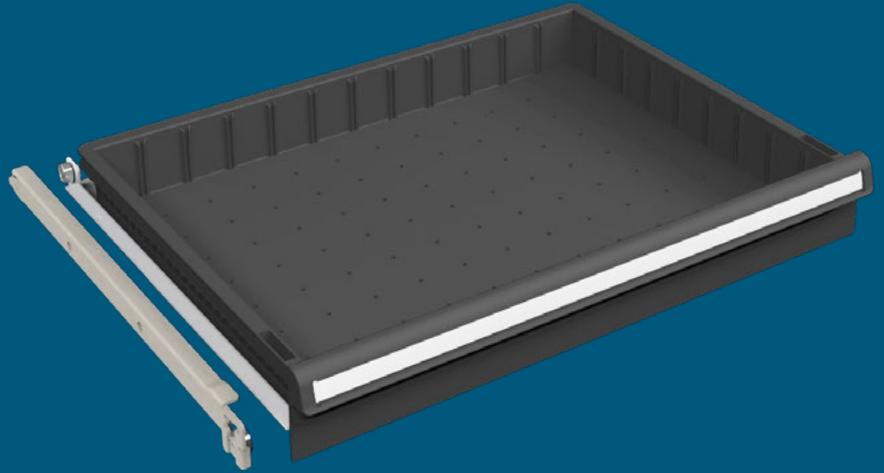

Concrete reliability.
Famepla build quality.

LIGHTER. MORE EFFICIENT.

Plastic drawers reduce the overall weight of the product, ensuring:

- Lower transport costs
- Easier handling
- Greater logistical efficiency

**Less weight, more efficiency.
The solidity remains.
The experience changes.**

LEVRA

CUSTOMISATION AND IDENTITY

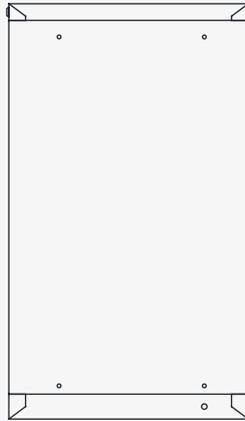

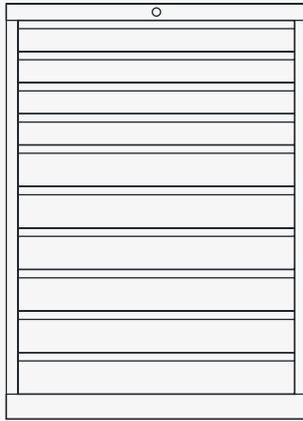

Every space has its own identity. LEVRA is designed to respect and enhance it.

The possibility of customising the colours of the drawers allows you to:

- Integrate the product into designed environments
- Create functional visual codes
- Strengthen corporate identity

A solution that combines organisation, aesthetics and visual consistency.

TECHNICAL SPECIFICATIONS:

Cabinet body available in:

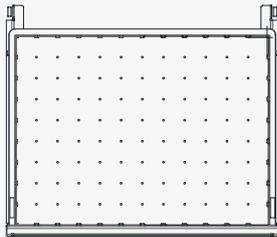

- 36x27 Eh
- 27x27 Eh

Drawers available in heights:

- 75 mm
- 100 mm
- 150 mm
- 200 mm

Drawer features:

- Load capacity up to 50 kg
- Partial extension
- Colour customisation
